TAMARIND SPRING

Tamarind Springs was conceived as an oasis for body and soul. They believe that the living world of trees and plants, rocks, and flowing water are potent tools to heal disease and calm the spirit. Starting with a superb location on Koh Samui, they integrated man-made structures into the natural environment, enhancing the setting and to making it accessible to guests without imposing on its intrinsic natural beauty.

At Tamarind Springs, you can truly reconnect with the slow, measured beat of the natural world in a potent environment – and find yourself nurtured, refreshed, and revitalized. Their formula is simple. Take time out in an extraordinary natural environment, and the magic begins.
