

SUMMER ACTIVITIES

EXPLORE THE UNDISCOVERED BEAUTY OF NISEKO DURING THE SUNNY SEASON.

“The sun, the bright sun, that brings back, not light alone,
but new life, and hope, and freshness to man,
burst upon the crowded city in clear and radiant glory.”

-Charles Dickens

NAC ADVENTURE PARK

Courses

Chameleon Course - Super easy course made at a height of 3 to 5 meters. It can be enjoyed by children and those who are not good at high places.

Adventure Course (Hill Side) -You can access a Yellow, Green & Blue course from the starting platform going to the mountain side. The yellow course, where you start, is a simple course which gives you a chance to get used to using the clic-it system and safety ropes. While you are on the yellow course you can look up and see the black course looming over your head.

Adventure Course (Valley Side) - Here, there are also Yellow, Green & Blue courses, but these head out from the starting platform towards Mt.Yotei. You get to feel high elevation from the start, including a chance to use a vertical ladder. After you get used to using the clic-it and the higher elevation on the yellow course, you can enjoy a great view from the Green and Blue courses. The Red course is close by, so as you play on the lower adventure courses, you can see the more dynamic elements up close.

Red & Black Course - Only available to those who have finished the adventure courses. On the Red course, there are many hard-core elements and our longest zip line, which is 90m! Meanwhile, the Black course is the most difficult course in our park. You need high levels of technique and physical strength as well as being very brave to complete the black course.
